

The Ridge will be the Leicester area's first gated, master planned community with a complete range of amenities found in today's most exclusive communities.

The Ridge rests on 100 acres of dense forests, rolling meadows, and clear streams with views that are typical of properties with twice the elevation. The average elevation is only 2100 feet. The Ridge is located merely minutes from downtown Asheville, North Carolina.

Western North Carolina's spirit comes alive in The Ridge's master plan. Through the establishment of architectural guidelines and minimum standards, the property owners of The Ridge enjoy the assurance of maximized long-term preservation and growth of values, and the certainty of the highest quality of lifestyle.
